

## PRODUCT DESCRIPTION

The design of 2 Tier Bike Rack provides maximum utilisation of horizontal space and allows you to fit twice as many bikes.

The lower tier is fixed to the ground pivot and the bikes just glide on to the tracks. The upper tier has a gas assisted strut for ease of use.

## BIKE RACK SPECS

- The racks are available in two alternating high and low heights, for easily staggering the bikes at installation.
- Custom heights available.
- Each rack holds two bikes.
- Supplied in knock-down kit form for easy assembly on site.

## FINISHES

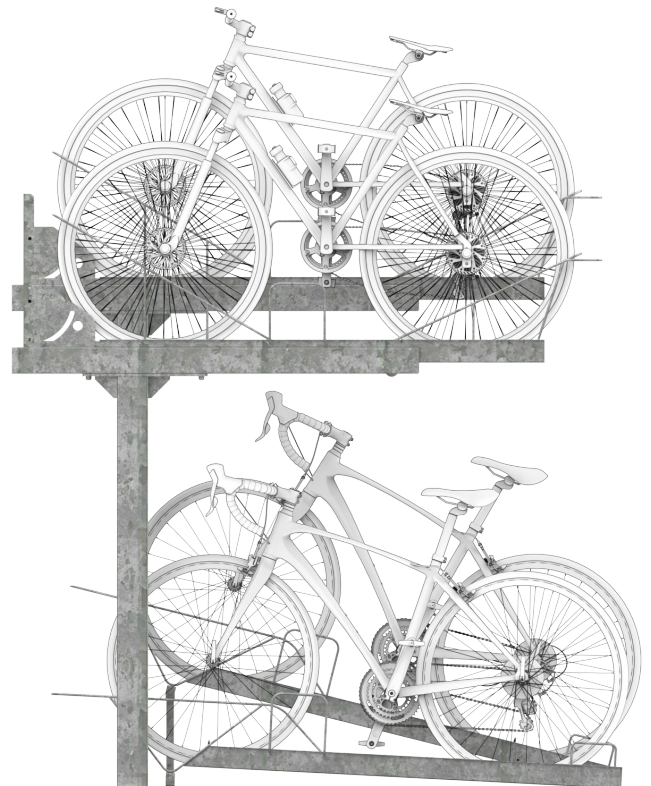

- Hot dip galvanised as standard finish.
- Powder coating available in all Dulux or Interpon colour ranges.

## WHY 2 TIER RACK SYSTEM?

- Maximum storage in small space
- Fast and easy assembly on site.
- Strong and durable – designed to last
- Customise your space with made to order rack heights
- Use at home or commercial settings.

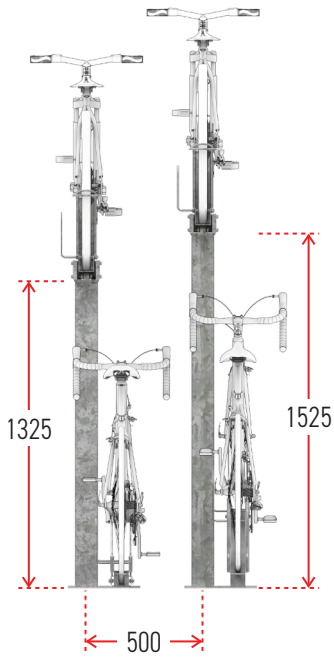

## COMPLIANCE

- Rack is AS2890.3 complaint.
