

PRODUCT SPECS

Product Code: SC-6M-G

Length: 1000mm

Diameter: 6mm

Weight: 0.75kg

Finish: Galvanised Steel

STEEL CHAIN - GALVANISED 6MM

- Made from steel
- Ideal for marking hazards and boundaries
- High-quality, 6mm thick, for indoor and outdoor use.

The Enforcer Group's 6mm Galvanised Chain is carefully engineered to meet the demands of a safe workplace. Weighing at 0.75kg, it balances strength with manageability. The zinc coating resists corrosion well.

The chain is versatile. It is a solution for construction companies, government councils, and many industries. This includes universities and airports. It's great for securing construction materials. It's also good for creating safety barriers or perimeters. This helps workplace health and safety.

Strong & Durable

Australian Standards Approved
