Insert: Black
Carborundum

Finish: 316 Stainless Steel

Fixing: Drill and Screw

TACTILE INDICATORS - 316 STAINLESS STEEL WITH CORBORUNDUM INFILL 300MM x 600MM

- Manufactured from 316 Stainless Steel
- Hazard tactile with Corborundum infill
- Beveled edges to reduce trip hazards
- Easy installation

The Stainless Steel Tactile Plate 316 With Black Carborundum Infill 300x600 is an effective and adaptable option for spaces where individual studs are insufficient. The plate is constructed of 316 Stainless Steel and has 72 tactile indicators that are fully welded and fastened through the plate, making them impossible to remove or push off.

This tactile plate passes anti-slip rating requirements, which ensures it provides exceptional slip resistance. It can be mounted on most surfaces so installation is not complicated.

The plate is a great option for any location where safety and style are necessity because it is not only practical and effective but also has an aesthetic feature.
