U-BAR BOLLARD - 90MM x 2 METER SURFACE MOUNTED - GALVANISED

- Made of galvanized steel, Rust and corrosion-resistant
- 90mm diameter and 2-meter length,
- Surface-mounted, Provides a physical barrier for protection
- U-shaped design for added strength and stability
- Easy to install and maintain
- Ideal for providing added protection to any property

The U-Bar Bollard - 90mm x 2 Meter Surface Mounted - Galvanised is a sturdy and effective way to protect your property.

Measuring 90mm in diameter and 2 meters in length, this bollard is made of galvanized steel, making it resistant to rust and corrosion.

It is designed to be surface-mounted, providing a physical barrier to protect buildings, vehicles, and pedestrians from potential collisions.

The U-shaped design of the bollard adds an extra layer of strength and stability, making it a reliable and durable solution.
