

# PRODUCT SPECS

Product Code: 1WaySpikes

Length: 900mm

Height: 60mm

Width: 210mm

Weight: 20Kg

Colours: High visibility orange finish

Fixing: 8 fixings each section. 14mm Hilti plug with a 100mm coach Screw and 12mm Washer.

# ONE WAY ROAD SPIKES

- Designed to be extremely strong construction
- Unique Enforcer Group design
- Most durable Road spikes on the market
- Fixing Bolts Included (concrete or asphalt)
- Installation Service is available

Enforcer One Way Road Spikes is a solution for creating a simple, mechanical one-way barrier and does not require an electrical infrastructure such as barriers or even gates, recommended to use on flat surfaces.

When a vehicle approaches from the correct direction the spikes simply retract, allowing the vehicle to pass freely. When approached from an unauthorised direction, the spikes lock up denying access and risking almost certain tyre damage. Designed to be extremely strong construction, Unique Open design eliminates build-up of road dirt and stones that causes normal one-way traffic spikes to fail.

Suited for exits and entrances to car parks, factories, and everywhere that is demanded a one-way direction.

Strong & Durable

Easy Installation
